These images were taken as part of the project however, it is my grandson that I have to thank.

From a very young age he developed an appreciation for nature.

# BETTER DAYS ARE ON THE

HORIZON

Dear reader, it is my hope that you have enjoyed reading our journey. I would like to think that if you yourself are in my position that you will feel the love and appreciation in what you do. Taking part in this project has enabled me to give myself a 'pat on the back' seeing in black and white what we have achieved is quite something. I offer to you dear carer a pat on the back and a heartfelt hug. Likewise, should you be on the other end and making decisions, I would like to think that I have touched your heart on behalf of all Kinship Carers. Perhaps this might better influence the system to become a little gentler on people like myself...

To all, please if nothing else be kinder to one another as we have no idea what is going on in someone's life.

Even the darkest

night will end and the sun will rise ...

**You are stronger than you think**

You have hidden strength.

Believe in yourself to get past any difficulty. Life's challenges are opportunities to discover your inner power.

Trust that you have the strength to face whatever comes your way. When you feel like giving up, remember the obstacles you've already conquered and the strength you've gained.

Surround yourself with positivity and supportive people and don't hesitate to ask for help. With your inner strength and the encouragement of others you can navigate through any storm.

Keep your head high, stay determined and know that brighter days are ahead
